SNOW QUEEN REVIEW

A scene from the Snow Queen

Weather Forecast

-50 degrees Celsius
Snow with icy conditions

CRACK THE CODE

Kai loves maths, and has created a code for you to solve.

Key: A = 1, B = 2, C=3, D = 4, E = 5 and so on for the whole alphabet

_____!

First solve the maths problems below. The answers will give you a number to match with a letter to reveal Kai's message:

4 times 2 =

14 minus 13 =

8 times 2 =

20 minus 4 =

19 plus 6 =

16 divided by 2 =

9 plus 6 =

3 times 4 =

20 minus 11 =

1 plus 3 =

12 minus 11 =

5 times 5 =

14 plus 5 =

PAPER SNOWFLAKE

Use the square outline below to create your own paper snowflake:

1. Use Cut along the BLUE arrow to create a square
2. Fold the square into triangles along the PURPLE dotted lines, folding the square in half, and then into quarters.
3. Next fold along the PINK dotted lines to create a small folded triangle.
4. Now use scissors to cut shapes out of the the edges of the triangle. Usually small triangle shapes work best, but you can try any shapes you like!
5. Once you are finished, unfold the paper carefully to reveal your snowflake!
