***Stripey Honey...is very yummy***, set in the Sunderbans, is the touching and funny story of how tigers, bees and honey collectors/local fisher-people learn to live and play together.

The production is a collaboration between Mashi, Big Imagination and The Spark Arts and supported by The Dukes Lancaster to tour to community venues and libraries in the North West and East Midlands.

Mashi Theatre is known for sharing universal stories with a playfulness and colourful exploration evocative of Asian culture. This new writing commission is inspired by protection and survival, incorporating sound, movement, simple puppetry and the spirit of the Jungle.
